

DREAM Lifestyle '04

ART WORKS Gallery

ART WORKS Gallery of Vancouver created a feast for the eyes and the soul at Dream Lifestyle 2004 with paintings by contemporary Canadian artists that added immeasurably to the quality atmosphere of the evening.

One of Western Canada's most dynamic and exciting modern art venues, ART WORKS represents numerous Canadian and International artists, and offers a wide variety of styles and mediums, including original canvases, sculptures, monoprints, and limited editions.

According to owner and art consultant Deanna Geisheimer, who has been in the business since 1980 and started the gallery in 1986, the work of its diverse roster of artists can be found in collections all over the world.

ART WORKS recently expanded its gallery in Yaletown where the gallery has been located since 1992, and together with the addition of numerous sliding panel displays a far greater number of pieces and artists are being showcased.

Deanna continues to bring fresh ideas to the gallery in her efforts to nurture the growing art community in Vancouver, which goes hand-in-hand with the gallery's efforts to work with, inspire and build the reputation of its artists.

ART WORKS also carries original sculptures, prints and the largest selection of moldings in Vancouver. The range and diversity of art available makes this gallery accessible to just about anyone who is in the market.
