

## Pacific Palisades Hotel

VANCOUVER  
A SHANGHAI HOTEL

August 1999

To Whom It May Concern:

**Re: ARTWORKS**

Over the past eight years, I have known and worked with Deanna Geisheimer at Artworks, and have the great pleasure in attesting to the flair and competency that she and her team of professionals offer clients.

Our company initially purchased artwork for the public areas of the hotel as part of a major renovation. Given the success of the pieces and the relationship, we turned to Deanna first when developing the standardized furnishing packages for both *The Palisades* and the Residences on Georgia Extended-Stay suites.

Whether it be for a commercial or residential environment, Deanna has an excellent eye and sense for the general public's perception of what is pleasing without being boring. She is always quick to pick-up on the design theme and details, then exponentiates the project with flair. She knows when its right to "push the envelope" and when to hold back; and most importantly, when something isn't right, she has the confidence (and diplomacy) to say so. Deanna has a particular talent at frame selection and sizing – and can take the most simple pieces into exciting and unimaginable dimensions.

The team at Artworks has always been reliable and efficient at fulfilling both large and small orders –with the same professionalism extended in both circumstances. Her team has done everything from restoration to on-site mural design and painting, and met our often demanding schedules and time-lines.

I would not hesitate to recommend Deanna and her colleagues at Artworks to consult and advise on any art programme, and am confident that each and every client will receive an exceptionally high standard of professionalism and service.
